U.S. Citizen | Based In Chesterfield, New Jersey
harkrishnan2e@gmail.com | [GitHub: HarishKrishnaan](#) | 856-745-3416

PROFILE

Computer Science graduate from Rutgers University with experience building JavaScript front-end applications, Python data tools, SQL-backed workflows, and client-server projects. Skilled in JavaScript, HTML/CSS, Python, Java, SQL, Git, debugging, testing, UI/UX, and data validation. Interested in associate software engineering, responsive web applications, REST APIs, healthcare technology, Agile development, and scalable public web products.

EDUCATION

Rutgers University - New Brunswick
Bachelor of Science - Computer Science

May 2026

PORTFOLIO

Web Development, REST API Concepts, Testing, and Software Debugging

[FP&A Forecasting and Variance Analysis Dashboard](#) | [Python](#), [Streamlit](#), [Pandas](#), [Plotly](#), [SQLite](#), [openpyxl](#)

- Built a Python dashboard that imports files, validates inputs, generates KPIs, and exports Excel reports.
- Created interactive Streamlit/Plotly dashboards and SQLite run history for repeatable reporting workflows.
- Used Pandas and openpyxl for data cleaning, reporting logic, file handling, and automated exports.
- Debugged file-handling, data-quality, calculation, dashboard, storage, and report-generation issues.

[Row Counter](#) | [JavaScript](#), [HTML](#), [CSS](#)

- Built a front-end counting application with HTML/CSS layouts, user actions, state changes, and display updates.
- Tested input errors, edge cases, reset flows, button behavior, and usability across repeated workflows.
- Strengthened JavaScript fundamentals relevant to React/Vue components, state handling, and reusable UI logic.

WORK EXPERIENCE

Golden Paws | Seasonal Daycare/Lodging Attendant

June 2021 - September 2024

- Supported daily operations in a fast-paced, hands-on environment requiring reliability, attention to detail, communication, and calm decision-making.
- Took responsibility for the safety and enrichment of groups of 30+ dogs while following procedures and responding to urgent situations.
- Trained and supported 5+ new employees across daycare and lodging procedures, improving consistency and team readiness.
- Resolved 25+ organizational errors related to pet item returns, improving accuracy, process reliability, and daily operations.

SKILLS

- **Languages:** JavaScript, HTML/CSS, Python, Java, SQL, C
- **Web/API:** REST API Concepts, Front-End Development, UI/UX, Responsive Design, Accessibility Basics
- **Tools:** Git/GitHub, VS Code, IntelliJ, MySQL, SQLite, Streamlit, Pandas, Plotly
- **Concepts:** OOP, Data Structures, Algorithms, Debugging, Testing, Data Validation, Agile/Scrum
- **Learning Focus:** React, Vue.js, Angular, Node.js, Express, CI/CD, Cloud, Containerization
